History of the ARB

The Arts Research Board (ARB) has its roots in the Research Advisory Committee (RAC) for the Arts Faculties, which originally reviewed and allocated summer research stipends to faculty applicants. In 1974, the RAC was renamed the Arts Research Board (ARB); its membership increased from ten to thirteen and its mandate expanded to include the responsibility of allocating funds to support research programs and research-related conference travel in the Humanities, Social Sciences and Business. Among the events that precipitated the changes were the reorganization of McMaster's administrative structure, a budget increase in its Grants-in-aid program and Canada Council’s introduction of the General Research Grants Program and Program Grants in support of groups of researchers. The six ex officio members included the Vice-President (Academic), the Deans of the Faculties of Business, Humanities and Social Sciences, the Dean of Graduate Studies and the Director of Research Services. There were six members-at-large, two from each of the Faculties of Humanities, Social Sciences and Business (to be nominated by their respective Deans) and one chair, to be nominated by the Faculty Deans in rotation.

ARB Mandate and Objectives

The key objective of the Arts Research Board is to cultivate a strong research base among the Faculties of Humanities, Social Sciences and Business. Specifically, ARB supports a) research programs of new faculty, b) new and/or collaborative, interdisciplinary and/or multidisciplinary research initiatives, c) ongoing research that has a budget less than the minimum required for SSHRC applications, d) research related conference travel and e) publication of peer-reviewed articles. It is expected that funding will lead to increased individual and group participation and success in external grant competitions. Seed funding is the Board's priority. Preferential treatment will be given to new faculty. Applicants to ARB who are not new faculty will be required to demonstrate exceptional circumstances indicating why they are unable to apply to SSHRC and/or why they require less than $7,000 in funding. Note: ARB funding is not intended to support applicant’s degree completion.

ARB Policy Review

The ARB Policy will be reviewed every two years (or as required) at a meeting chaired by the Vice-President – Research (or delegate). Changes to the Policy require approval by the Board.

ARB Membership and Quorum

The Arts Research Board is comprised of seven members ex officio (or their delegate) and three members nominated by their respective Deans. These appointments are generally for a three-year term, or a term as approved by the Dean.

7 Ex Officio:
Vice-President, Research
Dean of Graduate Studies
Dean of Business
Dean of Humanities
Dean of Social Sciences
Dean of Science
Director, Research Office for Administration Development and Support (Board Secretary)

3 Nominated:
1 Business
1 Humanities
1 Social Sciences

Quorum for the ARB Board is five members. Abstentions are permitted only when a conflict of interest exists.

Budget Sources

A SSHRC Institutional Grant (SIG) is the primary source of income for the ARB awards. Other sources may include the SSHRC General Research Fund (GRF) and a University contribution to supplement the SIG.

SSHRC Institutional Grant (SIG)
- The grant is based on SIG Eligible Full-time Teaching Staff and performance in all SSHRC research support programs (not just standard and strategic) in the preceding three years. Calculations ($) will be adjusted annually, although awards are granted for three year periods.
- Formula:
  - Head Count: $50/faculty, whose discipline falls within SSHRC mandate, including full-time teaching staff:
    - All academic staff who are teachers and/or senior academic staff (e.g., Chairs, Deans and Directors)
    - Full-time research staff who have an academic rank and a salary scale similar to teaching staff; and
    - Staff appointed for a minimum of 12 months who are teaching a full load.
  - Performance: based on the university's average performance in all SSHRC research support programs in the previous three years of competitions*, and calculated at the rate of:
    - 23% of first $100,000 awarded;
    - 20% of next $400,000 awarded; and
    - 14% of the remainder.
  - *The method of calculation also includes multi-institutional grants in order to distribute credit for performance to all co-applicants.

SSHRC General Research Fund (GRF)
- Funds remaining in SSHRC grants after the 12-month automatic period of grace provided by SSHRC at the end of a grant period are reclassified by SSHRC as a GRF and transferred to the University. Any funds remaining after this period are allocated automatically by the University to the ARB for distribution through the research and conference competitions.

University Contribution
- As of fiscal year 2003/2004 the McMaster contribution is $70,000.
- The University contribution is to be reviewed annually by the Vice President, Research.

Eligibility Criteria

To be eligible for ARB funding an applicant must be affiliated with McMaster University and must be eligible for SSHRC funding under the SSHRC Institutional Grant (SIG) Program.

Funding for all four grant categories is allocated to four Faculty pools, one for each of the Faculty of Humanities, the Faculty of the Social Sciences, the Faculty of Business, and Other. The funding allocated to each Faculty is based on the number of researchers who are eligible for SSHRC funding. For the current competition, funds were distributed as follows:

21% to Business
33% to Humanities
Where there are surpluses or unallocated funds for a Faculty:
  i. these funds (up to a maximum of $10,000 each for conference and research) will be carried
     forward to the next competition budget for the faculty where the surplus or unallocated funds
     originated.
  ii. Any surplus or unallocated funds in excess of $10,000 (for conference or research) will be
     redistributed to all other Faculties according to the standard formula.
  iii. transfer of funds between Research & Conference allocations is permitted such that total Major
     Seed funding will not exceed $70K.

**PLEASE NOTE:** Given the ongoing Covid-19 global pandemic, we will not be capping the
maximum carry forward for conference or research funds at $10,000, as referenced above. Faculties
will be able to carry forward conference and research funds in excess of $10,000 until further notice.
Note: you may also consider transferring funds from conference to research if the need arises, please
advise ROADS (if you haven’t already done so) if you wish to transfer funds.

Post Award Guidelines

**Deviation from Proposed Activities and/or Budget**
All conditions specified in the formal grant notification and relevant program requirements must be
respected. Unless otherwise specified, grantees may generally deviate from the proposed research activities
and/or schedules. Furthermore, they are not required to adhere strictly to the allocation of funds set out in
the application as long as they use their grant for the broad purpose for which it was originally awarded.

**Extension Requests**
Extension requests must be submitted in writing to ROADS with a clear justification for the request and
plans for project completion. Extensions are not permitted for SSHRC Exchange - Conference Attendance
& Representational Activities Grant projects.

**NOTE:** SSHRC Exchange - Conference Attendance & Representational Activities Grants that
have been awarded but researchers are unable to attend the approved conference due to
travel/Covid-19 restrictions. ROADS will request that researchers provide a plan if they advise that
they are no longer able to attend the conference they had applied and been funded for. ROADS
will forward the request to the faculty for review/approval. These will be dealt with on a case-by-
case basis. Alternatively, the researcher can decline the award and the funds will be returned to the
respective faculty allocation.

**Final Report Requirement**
To be eligible for future ARB funding, researchers who have been awarded ARB SSHRC Explore or
Exchange funds must submit a final report to ROADS within six months of completing the project.
